- 350mm Deep x 440mm Width Tray
- 2RU 20Kgs Capacity (distributed)

Construction

- 1.2mm Zinc Steel
- Power Coat finish Matt black
- Flat packed

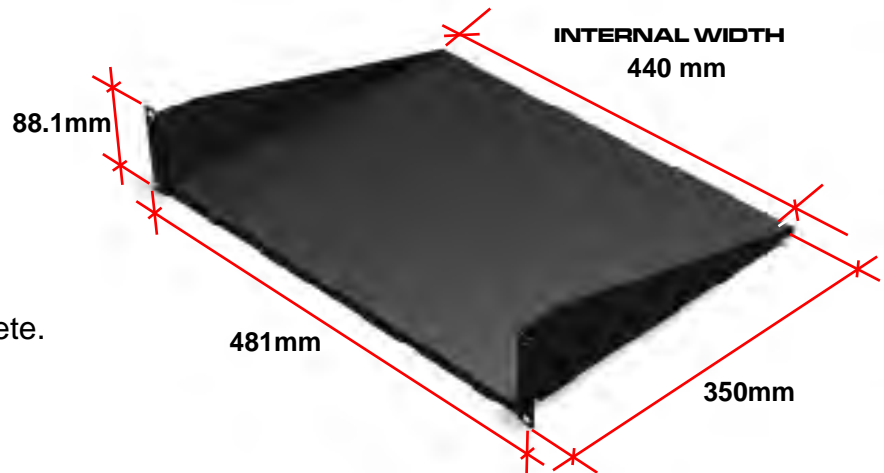

Installation Instructions

1. Check that the package is complete.

Package Includes:

- 1 base tray - 1 side support left
- 1 side support right
- 4 M6 Cage nuts
- 4 M6 X 16 mm screws
- 4 self tapping screws

2. Install the cage nuts in the vertical mounting rails at the required height
3. Fix the Side Support brackets into the rack using M6 screws supplied (make the screws firm but not tight)
4. Slide the tray onto the side support brackets and push down to lock into place
5. Tighten M6 screws (which was firmly done on step 3)
6. if the tray is for mobile use, fix the tray to the side support with 4 self tapping screws into the holes on each side.
