

BAYING KIT

Features:

- The Baying Kit is used to rigidly join two or more racks side by side.
- If Side Panels are fitted to the mating faces, they must be removed to fit the Baying Kit.

Notes:

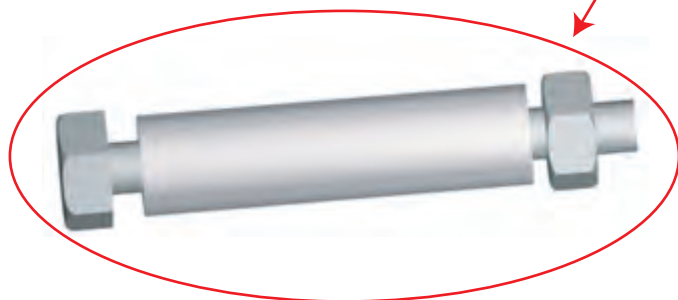

- Baying kits are universal, and will fit all rack styles and sizes, including SCEC endorsed racks.
- Smaller racks may not require the use of the full kit .
- When ordering racks to be installed in bays, remember that Side Panels are only required at the ends of the row .i.e. order 2 Side Panels for each row.

Package includes:

- 8 x M8 x 65mm Bolts and Nuts
- 8 x 48mm Tubular Spacers

Installation Instructions:

- Align cabinets using levelling screws at base
- Position Spacer between Side panel mounting holes
- Insert bolt, attach nut and tighten
- Repeat for remaining bolts
